## KAI TAK 2.0: HEALTHY LIFT-OFF 啟德2.0：健康啟航

Kai Tak 2.0 :Healthy Lift -Off projects a new healthy development strategy that benefits Hong Kong as a city, creates balanced socio-economic systems, and improves our natural ecologies of landscape, water, and habitats. The scheme promotes a new urban model that incorporates the global within the local, nature within the urban, and the social within our economy.

「啟德2.0：健康起飛」提出了可以造福香港的健康發展策略，該策略打造出平衡的社會經濟體系，同時從景觀、水質、生態多樣性各方面提高香港生態環境質量。本方案提出了兼顧國際與本土、自然與城市、社會性與經濟性於一體的都市新模型。
